### SUMMARY

Full Stack Developer with 3+ years building production-grade AI SaaS platforms — including voice AI, video funnels, appointment booking, and CRM systems. Specialize in React, Next.js, NestJS, and OpenAI integrations, with a track record of shipping multi-tenant products end-to-end across frontend, backend, database, and third-party integrations.

### SKILLS

**Frontend:** React.js, Next.js, TypeScript, Tailwind CSS, Redux, Radix UI, Material UI

**Backend:** Node.js, NestJS, Express.js, REST APIs, RBAC, Multi-Tenant Architecture, WebSockets, SSE

**Databases:** MySQL, MongoDB, Firebase Firestore, Prisma ORM, Redis, BullMQ

**AI & Integration:** OpenAI/ChatGPT, Gemini, ElevenLabs, HeyGen, LiveKit, Twilio, Google Calendar, Stripe, Cloudinary, Zapier, QuickBooks, SendGrid, Resend, Apollo, Prospeo, Fullenrich

**Security & Auth:** JWT, httpOnly Cookies, bcrypt, HMAC Webhooks, API Keys, SSO

**Payments & Billing:** Stripe Checkout, Subscription Billing, Credit-Based Usage Systems

### PROFESSIONAL EXPERIENCE

**Spark AI**  January 2026 – Present  
Full Stack Developer Remote, Dubai

- Built 5 production AI SaaS platforms from scratch — Slotwise, FunnelFlow AI, Avatar Studio AI, CircleVoice AI, and Leads Reach — all live and serving real users.
- Architected multi-tenant systems with RBAC, provider-scoped data access, JWT + CSRF auth, Stripe subscriptions, credit-based billing, and webhook integrations across every platform.
- Integrated OpenAI, HeyGen, Twilio, LiveKit, Google Calendar, WhatsApp, Airtable, and Google Sheets into production workflows; built async media pipelines with Cloudinary and BullMQ.
- Designed reusable SaaS architecture patterns across authentication, billing, tenant isolation, provider management, and third-party integrations, reducing duplicated engineering effort across multiple products. • Built production-grade AI workflows for voice, video, scheduling, lead generation, and CRM automation, converting complex business operations into scalable self-serve SaaS modules.

**GherTak** February 2026 – Present  
Full Stack Developer Remote, Islamabad

- Developed customer-facing web and mobile e-commerce features for GHERTAK using Next.js, TypeScript, React including product discovery, cart, checkout, order tracking, and account management.
- Contributed to multi-role platform workflows for customers, vendors, and administrators, integrating APIs for authentication, products, orders, inventory, payments, and admin/vendor operations.

**NoveltySoft**  November 2023 – December 2025  
Full Stack Developer Lahore, Pakistan

- Reduced document processing time by ~90% by building a marketing collateral system with real-time status tracking and client assignment workflows.
- Automated ~85% of financial and onboarding processes by integrating QuickBooks and Zapier; built AI communication tools (ChatGPT + LiveKit + Twilio) that automated ~80% of support interactions.

- Improved overall system performance by ~40% through legacy codebase refactoring; built SSO for admin/client portal switching and a dynamic RBAC module managing feature permissions per role.

## PROJECTS

---

### Appointment Booking SaaS – Multi-Tenant Scheduling Platform

Next.js · NestJS · MySQL · Stripe · Redis · BullMQ · Google Calendar · JWT · CSRF · SSE

- Public booking wizard with service, provider, and availability management across multiple organization locations.
- Admin, provider, and customer dashboards with waitlists, intake forms, appointment reschedule/cancel flows, and real-time dashboard refresh via Server-Sent Events.
- Stripe payments, Google Calendar sync, HMAC webhooks, API key management, team invites, and email/WhatsApp notifications.

### AI Sales Outreach & CRM – Multi-Channel Lead Generation Platform

React · Next.js · Node.js/Express · MySQL · OpenAI/Gemini · ElevenLabs · Unipile for WhatsApp & LinkedIn · Airtable · Google Sheets · HubSpot · Stripe · Google OAuth

- AI-powered lead generation, enrichment, and scoring with multi-channel outreach campaigns across email, LinkedIn, WhatsApp, and AI voice.
- CRM modules with deals, contacts, companies, tasks, activity timelines, pipeline stages, appointments, and sales reports.
- Team workspaces, lead ownership, CSV exports, Google Sheets/Airtable imports, campaign performance dashboards, and HubSpot-style integrations.

### AI Video Funnel Builder – No-Code Interactive Funnel Platform

React · Vite · Node.js · Express · MySQL · HeyGen · OpenAI · Cloudinary · Stripe · Google OAuth

- No-code funnel builder where users create interactive funnels using AI avatar videos, drag-and-drop steps, lead capture forms, questions, file uploads, and website embeds.
- Funnel management with draft/published states, duplication, public visitor flows, and analytics tracking views, clicks, conversions, drop-off points, and traffic sources.
- Google sign-in, email verification, Stripe billing plans with plan limits, media uploads, and responsive light/dark UI.

### AI Voice Calling Platform – Automated Sales Outreach System

React · NestJS · PostgreSQL · Twilio · OpenAI · ElevenLabs · Airtable · Google Sheets · Stripe · Analytics

- Automated sales outreach platform with configurable AI voice campaigns for lead follow-up, appointment booking, and customer qualification.
- Campaign builder with knowledge base setup, AI voice selection, lead imports, test calls, and live controls (launch, pause, resume, stop).
- Call recordings, transcripts, analytics dashboards, voice cloning workflows, credit billing, and Airtable/Google Sheets lead import integrations.

### Avatar Studio AI – AI Marketing Creative Platform

React · Next.js · NestJS · OpenAI · HeyGen · Kie · Cloudinary · Stripe

- AI-powered creative generation for avatar videos, product videos, image ads, and market-trend style analysis with reusable creative recipes.
- Structured creative brief flows, AI script strategy generation, multiple script variants, CTA guidance, and platform-specific content adaptations.
- Async video generation jobs with polling and provider callbacks, credit-based usage, encrypted provider credentials, audit logs, and admin billing controls.

## EDUCATION

---

The Islamia University of Bahawalpur 

Bachelor of Computer Science

- CGPA: 3.63/4.0

October 2019 – May 2023

Bahawalpur, Pakistan
